Dated 18.06.2021

To,

Rajasthan Telecom Circle  
Jaipur**

Sub: Regarding suggestions for development related issues and some pending grievances of executives in Rajasthan circle.

**Respected Sir,**

**We are facing the Covid-19 pandemic disease from last one year and its severity in last three months is very vast. A no. of BSNL staff and their family members have lost their lives. The sale and revenue of BSNL is also affected at large scale due to this disease. We have to do more efforts in rest of the months of this financial year to run the BSNL otherwise it will be very difficult to bear the stress of next wave of Covid-19, if it comes.**

I want to submit some operation and HR related issues for your kind notice and favorable order please.

**1. Provision of FTTH connection/enrolment of new TIPs:**

We may convert this pandemic situation into an opportunity as the demand of work from home and online classes is increasing again. We may grasp this demand by reaching to maximum premises and providing FTTH connection on war footing basis. We may also start booking of FTTH connection online at BSNL website. We may send SMS with link to subscribers for information and booking of FTTH. These leads may directly be sent to TIP vendors PIN code wise. The TIP vendors should be monitored properly so that they cannot demand undue amount of ONT and fiber cable for new FTTH connection. In this regard targets may be assigned to TIP vendors. This will improve our image in the public as well as improve our achievement of FTTH.

**2. Good initiation with starting HI BSNL Service for direct SIM sale:**

Under your valuable guidance, Rajasthan circle has started the HI BSNL SERVICE on 1st June for direct SIM sale. As at present most of the BSNL staff is vaccinated only 1st dose due to which they are more prone to be infected with Covid-19 disease, this service will be very popular and beneficial among the public in this Pandemics circumstance. By this service customers may get their new SIM/MNP PORT IN at their door stop. This similar type of service may be initiated for FTTH services also to grasp more connections.
